1. Project Objective

To develop a premium, modern and responsive corporate website for the frozen food business, supported by a product catalogue, brand storytelling and product management dashboard. The website will help showcase the company's frozen food portfolio, establish brand credibility, connect with distributors, retailers, hotels, restaurants and bulk buyers, and generate business enquiries.

2. Package 01 – Essential Corporate Website

Investment: ₹35,000

Designed for businesses looking for a professional online presence with a product catalogue and essential admin management.

Website Design & Development

- Professional and responsive website design.
- Modern homepage with promotional hero banner.
- Company introduction and brand story.
- About Us page.
- Product catalogue page with category and subcategory sections.
- Individual product information pages.
- Contact Us page and B2B enquiry form.
- WhatsApp enquiry integration.
- Mobile, tablet and desktop optimisation.

Product Catalogue

- Initial upload of up to 50 products (confirm final quantity in signed scope).
- Product name, description, category and images.
- Packaging and weight information.
- Basic product specifications and product enquiry button.

Basic Admin Panel

- Secure admin login.
- Add, edit and delete products.
- Manage product categories.
- Upload and update product images.
- Update basic website content.
- View customer enquiries.

Basic SEO Setup

- Meta titles and descriptions.
- SEO-friendly URLs and image alt tags.
- XML sitemap and robots.txt.
- Basic Google Search Console setup.

Deliverables

- Responsive website and basic product management dashboard.
- Product enquiry functionality and website deployment.
- Basic admin training and 30-day post-launch technical support.

Estimated delivery: 3–4 weeks.

3. Package 02 – Premium B2B Website

Investment: ₹60,000

Designed for businesses seeking a premium digital brand presence, advanced product management and a scalable B2B enquiry platform.

Premium Website Design & Development

- Premium UI/UX design and cinematic homepage banner with animations.
- Advanced brand storytelling, company history, vision and mission.
- Product category showcase and dedicated product detail pages.
- Brand portfolio section.
- Quality and food safety section.
- Infrastructure and capabilities section, where applicable.
- B2B solutions page, gallery and company highlights.
- Contact and enquiry pages; responsive development across devices.

Advanced Product E-Catalogue

- Initial upload of up to 100 products.
- Dynamic product category management, product search and category-based filtering.
- Product SKU management and multiple product images.
- Detailed product descriptions, specifications and attributes.
- Packaging size, weight, storage temperature and shelf-life information.
- Related products and featured products.
- Individual product enquiry forms.

TECH SOLUTIONS PRIVATE LIMITED

Advanced Admin Dashboard

- Secure admin authentication and dashboard with product/enquiry statistics.
- Product CRUD, category and brand management.
- Product image gallery and specifications management.
- Homepage banner, About Us, brand story and gallery management.
- Blog and news management.
- SEO management for individual pages and products.
- Enquiry tracking, status updates and Excel/CSV export.
- Admin and content manager access roles.

B2B Lead Generation

- Product-specific and bulk purchase enquiry forms.
- Distributor partnership enquiries.
- Hotel, restaurant, retailer and supermarket enquiries.
- WhatsApp integration and email notifications.
- Enquiry management dashboard.

Advanced SEO & Performance

- Premium corporate website and advanced dynamic e-catalogue.
- Custom admin dashboard and product/brand management system.
- B2B enquiry management system and website deployment.
- Admin training, handover and 60-day post-launch technical support.

Deliverables

- Premium corporate website and advanced dynamic e-catalogue.
- Custom admin dashboard and product/brand management system.
- B2B enquiry management system and website deployment.
- Admin training, handover and 60-day post-launch technical support.
